Allmark™

Permanent

Through years of research and development, possessing in-house ink formulation capability and tip manufacturing technology, DOLLAR has successfully transformed several different critical marking and writing application requirements into one single unified platform: the no-compromise Allmark, a truly universal marker for all surfaces; Plastic, Glass, Metal, Fibre, Film, Paper & Board, Textile, OHP, CD/DVD and more . . .

Salient Features of the Allmark Series

- Heavy-duty wear-resistant tips, manufactured with advanced materials such as acrylic fibre, having optimized porosity-structure with that of ink-delivery system, for a consistent and uninterrupted flow, even for the most demanding marking requirements
- Brilliant, high intensity, neutral smelling inks that dry instantly [after writing], are permanent, water proof and light fast on a wide variety of surfaces
- Precise markings with virtually no feathering and penetration on almost all surfaces
- Extended shelf and usage life: State-of-the-art technical design and construction which lets every marker remains perfectly usable even after years of storage

Whatever your marking or writing application, where permanency is required, on whatever the surface . . . you can now rely on Allmark
